ANNUAL REPORT 2022-2023

WLF

ABOUT;

Grassroots initiatives are vital for empowering women-led NGOs. By providing support, resources, and advocacy, these efforts amplify the impact of women leaders in driving positive change within their communities. We are working in 20 districts of TamilNadu.

VISION

“Women Leads the Social Sector”

MISSION

- Strengthen women headed organizations in social sector, driving change at the grassroots level.
- Equip women leadership to led initiatives and bring transformative change in society.
- Enhance network between members for shared purpose of social development.
- To reach out to 500 women leaders by 2028.

PURPOSE:

To enable the women leaders of the civil society organisation to lead the social change by strengthening their organisation and team members.

GOAL:

To influence 500 women leaders in Tamil Nadu

2022-2023 Women's Livelihood Federation Programs

19.10.2022

STATE-LEVEL WOMEN LEADERS CONSULTATION PROGRAM

The state level women leaders consolidation program was held on 19.10.2022 at jayam trust ,kodumudi,Erode.In the past year, the State-Level Women Leaders Consultation Program has made significant strides in empowering and supporting women leaders across the region. This program aimed to foster a collaborative environment where women leaders could share experiences, exchange strategies, and build networks to enhance their leadership skills.

Key Highlights:

- **Workshops and Seminars:** Organized a series of workshops and seminars on leadership development, policy advocacy, and strategic planning, which were attended by over women leaders from various sectors.

- **Networking Opportunities:** Facilitated multiple networking events, creating valuable connections among women leaders and providing platforms for mentorship and collaboration.
- **Policy Impact:** Engaged in dialogue on key policy issues affecting women and developed actionable recommendations that have been

presented to policymakers for consideration.

- **Resource Sharing:** Provided access to resources, including research reports and best practice guidelines, to support women in leadership roles.

Outcomes:

- Enhanced leadership skills and confidence among participants.
- Strengthened networks and support systems for women leaders.
- Increased visibility and influence of women in key policy discussions.

Overall, the program has contributed to advancing gender equity and empowering women leaders to drive meaningful change within their communities.

26.11.2022

CYBER CRIME AND VIOLENCE AGAINST WOMEN

The 26.11.2022 one of the board member conducted the cyber crime and violence against women at tirupur . Over the past year, the Cyber Crime and Violence Against Women Program has been instrumental in addressing the growing concerns of digital safety and online violence against women. This program focused on increasing awareness, providing support, and implementing strategies to combat cyber-related offenses.

Key Highlights:

- **Awareness Campaigns:** Launched a series of educational campaigns to raise awareness about cyber crimes and online harassment, reaching over individuals through social media, workshops, and community events.
- **Training and Resources:** Conducted training sessions for women on digital safety, including how to protect personal information, recognize cyber threats, and respond to online harassment. Distributed comprehensive guides and resources to help women navigate and report cyber crimes.
- **Support Services:** Established a dedicated helpline and counseling services for victims of cyber crime and online violence, offering confidential support and legal advice.
- **Collaborations:** Partnered with law enforcement agencies, tech companies, and advocacy groups to strengthen response mechanisms and improve the handling of cyber crime cases involving women.
- **Policy Advocacy:** Engaged in advocacy efforts to influence policy changes and enhance legal frameworks to better protect women from cyber violence and ensure more effective prosecution of offenders.

Outcomes:

- Increased public awareness and understanding of cyber crimes and online violence.
- Enhanced digital safety skills among women, leading to a decrease in reported incidents of online harassment.
- Improved support systems and legal responses for victims of cyber crime.
- Stronger collaborative efforts between stakeholders to address cyber violence.

The program has made notable progress in safeguarding women in the digital space and continues to strive for a safer online environment free from violence and exploitation.
